SKU: 2EW-1146-10M

54.99 €

Product on the website

* Recommended retail price

The 2E HDMI optical cable, compliant with the 2.1 standard, is designed to transmit video and audio signals over long distances without any loss of quality. With a bandwidth of up to 48 Gbps, it supports 8K video at 60 Hz or 4K with a higher refresh rate. Optical technology ensures signal stability even at distances of up to 10 m, making the cable ideal for complex installations and spacious rooms.
